

## TLS Upgrade Notice

To: Market Data Services subscribers

### Changes

In order to meet PCI Data Security Standard, dxFeed migrated its services to later versions of TLS (Transport Layer Security protocol). TLS 1.1 will be disabled for dxFeed services on September 1, 2019. More secure encryption protocols are implemented: TLS 1.2 and TLS 1.3 are already available for connection.

### Effective Date

TLS 1.1 will be disabled on **September 1, 2019**. Please check that you use TLS 1.2 or TLS 1.3 by this date.

### Affected Services

- tools.dxfed.com
- options.dxfed.com
- charts.dxfed.com
- demo.dxfed.com
- scan.dxfed.com
- script.dxfed.com
- viewer.dxfed.com
- bookmap.dxfed.com
- script-api.dxfed.com

If you have any questions concerning TLS protocol, please contact [support@dxfed.com](mailto:support@dxfed.com).
